

# Maintain Your Social Distance

Where social distancing cannot be achieved, update Group Risk Assessment (GRA) and Field Level Risk Assessment following the hierarchy of controls.

## What is COVID-19 (Coronavirus)?

Coronaviruses are a large family of viruses which may cause respiratory infections. The most recently discovered coronavirus causes coronavirus disease COVID-19, an infectious respiratory disease. This new virus and disease was unknown before the outbreak began in late 2019.

## Stay Home if You Experience Any COVID-19 Symptoms

FEVER

DIFFICULTY BREATHING

TIREDFNESS

DRY COUGH

The most common symptoms of COVID-19 are fever, difficulty breathing, tiredness, and dry cough. Some patients may have aches and pains, nasal congestion, runny nose, sore throat or diarrhea. People with fever, cough and difficulty breathing should seek medical attention.
