Getting started

To enroll in a DeltaCare USA plan, simply complete the enrollment process as directed by your benefits administrator. Select a new DeltaCare USA dentist or check to see if your preferred general dentist is in-network.

On your plan effective date, visit **deltadentalins.com** to create a secure online account where you can:

- **Access your plan benefits.** Your Evidence of Coverage can be located in your online account under the benefit details section. You can view or download a copy of the document for your records. This useful document provides a thorough description of how to use your benefits, including covered services, copayments and any limitations and exclusions of your plan.
- **Locate an electronic ID card.** This card is for your records only — you do not need to present it in order to receive treatment. You can view, print or email a copy of your electronic ID card.
- **General dentist.** If selected, you can find the name, address and phone number of your assigned general dentist. You can use our search tool to find, select or change your DeltaCare USA general dentist.

To get care, call the dental facility to make an appointment. **Important note**: In order to receive benefits under your plan, you must visit a DeltaCare USA dentist. You can visit any DeltaCare USA general dentist at your selected dental facility as long as they are in the DeltaCare USA network. There is no coverage for out-of-network care.

General plan information

You and your eligible dependents have emergency dental service coverage for out-of-area emergencies.[3] Your out-of-area emergency benefit (typically limited to $100 per person) is for services to relieve pain until you can return to see your general dentist.[4] Standard plan limitations, exclusions and copayments may apply.

There are no exclusions for most pre-existing conditions, except work in progress.[4] Treatment in progress includes services such as preparations for crowns or root canals, or impressions for dentures. If you started treatment before your plan's effective date, you and your prior dental carrier are responsible for any costs. Some DeltaCare USA plans may cover in-progress orthodontic treatment.

[1] In AZ, MD, and TX, if you do not select a dentist when you enroll, we will choose one for you.

[2] If you have not yet been assigned to a DeltaCare USA general dentist, you can do so by visiting any DeltaCare USA general dentist that is accepting new patients. When your selected dentist files a qualifying claim, you will be added to their roster and they will become your assigned DeltaCare USA general dentist. Once assigned, you must visit this dentist for future visits to receive benefits. Dependent children under the age of 14 may obtain covered care from an in-network pediatric dentist without referral from a general dentist.

[3] State-specific minimum distance requirements may apply.

[4] In TX, there is no limit on the number of miles or on the dollar amount per emergency.

Glossary

Here are some common terms that will help you understand your plan:

Authorization: The process by which Delta Dental determines whether a procedure or treatment is a referable benefit under your plan.

Copayment, or copay amount: The fixed dollar amount a member is responsible for when receiving treatment.

DeltaCare USA dentist: A dentist who is a member of the DeltaCare USA network. These dentists have contracted with Delta Dental and agreed to accept negotiated fees for the services provided to DeltaCare USA members.

Diagnostic and preventive services: A category of dental services that includes benefits for oral evaluations, routine cleanings, x-rays and fluoride treatments. There are low or no copayments for these services to encourage you to seek regular care and prevent problems from developing.

Effective date: The date your dental plan becomes active. Also, the date a member becomes eligible for benefits.

Evidence of Coverage (EOC): A guide that details your specific dental plan benefits, covered services, exclusions, limitations, deductibles and copayments. Also known as Certificate of Coverage.

Limitations and Exclusions: Limitations are usually related to a specific time or frequency — for example, a plan may cover only two cleanings in a 12-month period or one cleaning every six months. Exclusions are services not covered by a plan.

(Dental) Referral: Directing a patient to a dental specialist by a general dentist.[1]

Specialist services: Services performed by a dental specialist, such as oral surgery, endodontics, periodontics or pediatric dentistry. When specialty dental care is needed, your general dentist will refer you to a trusted specialist in the network.[2]

[1] In TX, there is no exception for work in progress for covered DeltaCare USA benefits.

[2] Dependent children covered under a DeltaCare USA plan have the option to seek dental care from a pediatric dentist through the age of 13, whether or not the child has an assigned general dentist. Referrals to visit a pediatric specialist are not required. If the pediatric dentist determines that additional specialty care is needed, they may refer pediatric patients directly to other specialists, such as an orthodontist. At age 14, covered dependent children must obtain care from their assigned DeltaCare USA general dentist.
